November 2026

Pet of the Month: Holly

She’s calm, cool, and sweet, with just enough bashfulness to make earning her trust feel extra special. She may not be the first one to run up and demand your attention, but give her a little time, and you’ll see just how sweet she can be. There’s something about that smile that sticks with you, and once you notice it, she’ll be hard to forget. Give her a chance to come out of her shell, and you might just find your new favorite companion.

Volunteer Spotlight:

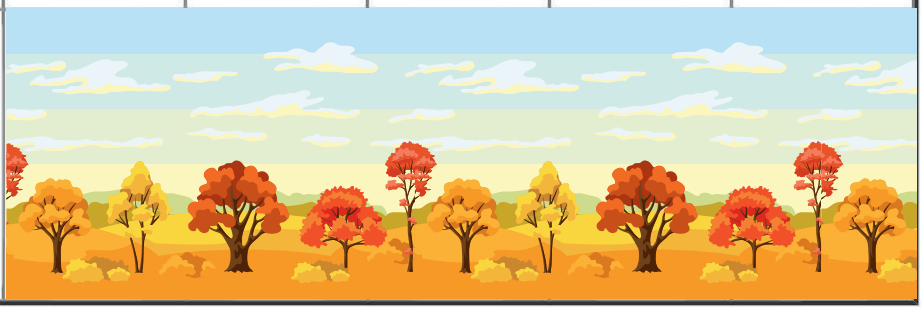

Madelyn Bittle

Please join us in celebrating Madelyn Bittle, our Volunteer of the Month!

Madelyn is a rock star who shows up almost daily, always ready to help wherever she's needed! From cleaning kennels and walking dogs to assisting with surgery recovery and events, she brings dedication and compassion to everything she does. Madelyn, thank you for all you do for our animals and the CASS family! We're so thankful for you and can't wait to see you pursue your future in veterinary medicine! Help us give Madelyn a BIG round of applause!

CABOT
ANIMAL SUPPORT SERVICES

Why Give Monthly?

Because the animals need care everyday, not just once.

Your recurring gift helps provide:

- Food
- Medical care
- Enrichment
- Shelter
- Hope!

Every month.
Every animal.

November REMINDER

FOODS THAT ARE NOT SAFE FOR DOGS & CATS

Some foods that are safe for us can be dangerous — or even life-threatening — for our furry friends. Keep these foods out of reach this holiday season and always!

CHOCOLATE
Contains theobromine, which can cause vomiting, seizures, and even death.

GRAPES & RAISINS
Can cause kidney failure in dogs (and may be harmful to cats, too).

ONIONS & GARLIC
Can damage red blood cells and lead to anemia.

AVOCADO
Contains persin, which can cause vomiting, diarrhea, and breathing problems.

XYLITOL
An artificial sweetener that can cause a dangerous drop in blood sugar and liver failure.

ALCOHOL
Even small amounts can cause severe poisoning, coma, or death.

CAFFEINE
Found in coffee, tea, energy drinks, and chocolate; can cause restlessness, rapid heart rate, and seizures.

COOKED BONES
Can splinter and cause internal injuries or blockages.

RAW MEAT & EGGS
Can carry bacteria like Salmonella and E. coli, which can cause serious illness.

HIGH-FAT & SALTY FOODS
Can lead to pancreatitis, digestive upset, and dehydration.

When in doubt, keep it out!

A SAFE PET IS A HAPPY PET.

Our Mission...

Cabot Animal Support Services promotes responsible pet ownership, humane animal care, and reducing pet population through education, community resources, and advocacy.

Welcome!

November is here! As the weather gets colder and the holiday season approaches, remember to keep your pets safe, warm and healthy. From keeping harmful holiday foods out of reach to providing cozy spaces and plenty of love, a little extra care can make this season happier for every member of your family—paws included!

Cabotanimalsupportservices.com

Support healthy communities—help prevent pet overpopulation by having your pets spayed or neutered!
